REFERENCE LETTER

Dear Sir/Madam,

Subject: Reference letter for IYAMUREMYE Didier

I have known Didier IYAMUREMYE for One Year and Half now. I have supervised him during his academic research entitled " Medical Data Sharing System" which was intended to link electronically two medical systems in order to share patients records in case of transfers.

To the best of my knowledge Didier is a motivated, determinant student who can easily meet the requirements and successfully handle his assignment at your institution.

I commend him for his extraordinary work ethic although he has room to grow, especially in leadership capacity. His intellect is definitely there, but he can sometimes be reserved and not let it come out as much as he could.

There is no much I can say about his character except that he is very hard working and committed to professional advancement. He also is a naturally warm and decent person.

Sincerely yours,

Pierre Celestin NIZEYIMANA

Lecturer at AUCA

Department of Networks and Communication Systems
